CONTROL PANEL

CP-10

CP-20

APPLICATIONS

The SONA CP-20 is a control panel that controls all SONA's communication models up to 20 units in commercial and industrial applications including explosion proof and clean rooms using RS232 communication cables.

KEY FEATURES

- Supplies power to SONA communication models.

- Connects up to 20 SONA communication models per panel. Total of two panels per unit.

- Displays all SONA communication and can be controlled individually and as a group.

- Adjust level of output, on/off for each unit separately or as a group.

- Displays error code when malfunctioning or trouble.

- Control up to 6,500 feet or 2,000 meters of the first unit (hard wired).

- Every control panel is strategically placed to maximize the efficiency of the unit.
